COMMUNITY

Financial Counselling Services

Winnipeg, Manitoba

Vision

All Manitobans will have the capacity to make **informed decisions** and navigate successfully the various financial systems that have impact on their daily lives

Financial Counselling/Financial Coaching seeing the 'big picture':

- Client context
- Client capacity
- Always solution-focused, client-centred
- Building on strengths

- Central to addressing crisis as well as building capacity is ensuring access to all resources, entitlements and benefits

- It's not JUST about the math!
 - Habits
 - Attitudes
 - Quirks of Human Nature that are barriers to lasting change

- Challenges of Financial Counselling or Coaching:
 - Too little, too late?
 - Not directive but holding a client accountable
 - Square pegs, round holes –
 - no one size fits all formula for every client
 - Can be resource intensive

Guiding you in the right direction.
