**Step 4 - The cell phone**

- **Battery life** – How many hours will the battery last before it needs to be recharged? How often will it need to be replaced?
- **Durability** – Is the phone fragile or can it handle wear and tear?
- **Keypad** – Is it easy to use?
- **Screen** – Is it easy to see?
- **Size** – How big is the phone? How heavy is it?
- **Other** – Are there other things that are important to you in a cell phone?

**Step 5 – Prepaid Cards or Contract?**

**Prepaid Cards:**

**Advantages**

- Can pay in advance, no unexpected charges
- No long-term commitments
- Can stop using phone without fees or charges
- Convenience; can buy cards at many stores without a credit card

**Drawbacks**

- Higher costs per minute than contracts
- Minutes expire after 30 days
- Have to buy new minutes before expiry date or you lose minutes you paid for
- Have to keep track of minutes so you don't run out

**Contracts:**

**Advantages**

- Can check bill to review use
- Can get reduced price on cell phone
- Can choose a plan that best suits you
- May be able to bundle with other services to get discounts

**Drawbacks**

- Contract is long-term, there are penalties for breaking them
- Contract means on-going financial expense
- Can't update cell phone frequently
- If you use more minutes than the plan allows, there can be costly charges.

**Step 6 – Your Cell Phone Bill**

Are you using your minutes as you expected?

Are your long distance charges high?

Are you sending and receiving text messages as much as you expected?

Would you be better off with a prepaid card or different service provider when your contract ends?
